INTRODUCTION

A New Generation of DAF trucks deserves a New Generation of DAF Accessories. We are proud to present a new range of accessories for the exterior and interior of our best trucks ever: Developed by DAF for the XD, XF, XG an XG+ truck range, with a focus on safety, driver comfort, and cost efficiency. Add the finishing touch to your ideal truck now.

MAKE THE NEW DAF, YOUR DAF

With DAF Accessories, you can turn the New Generation DAF into your DAF. Opt for something to create a visual distinction or for add-ons that enhance your comfort and driving pleasure while on the road. Whatever your choice, you are always choosing the highest quality.

The DAF accessory range has everything you need to drive your business:

- Exterior Styling: An impressive look to enhance your corporate image and let your drivers drive their trucks with pride
- Aerodynamics: Cost cutters to reduce operating costs
- Driver Comfort: Driving convenience for even more driver comfort
- Safety & Security: Driving safety to protect the driver and his DAF truck as well as other road users and the environment
- Hydraulics: Full range of hydraulic applications to make a DAF suitable for your business
- Merchandise: Our Merchandise collection to give you that special DAF feeling

“We take DAF Accessories just as seriously as our trucks. Comfort, safety, durability and a premium look are paramount.”

Bart van Lotringen, Design Director DAF

DAF LIGHT BARS

The DAF Roofbar is the ultimate accessory for the New Generation DAF trucks. The 76mm thickness gives the stainless steel bar a solid and robust look. In addition the DAF logo in contrasting colors assures an exclusive image to the vehicle.

PRE-INSTALLED WIRING

The pre-installed wiring offers outlets for 6 lamps splitted over 2 different groups. Each outlet has 3 wires, supporting both day- and full light settings of lamps.

MOUNTING RAIL

The mounting rail on the back of the bar makes separate clamps for lamps redundant and offers a clean look from the front. It also offers flexibility in the number- and positioning of lamps on the bar.

INSTALLATION

The light bars for New Generation DAF trucks are designed, engineered and tested together with DAF. This leads to a true OE-quality solution that is easy to install but also works perfectly together with the design and materials of the New Generation DAF trucks.

SPOTLIGHTS & BEACONS

PACCAR Parts offers an extensive range of spot lights and beacons to complete the light bar configuration on your truck. Please refer to the spot-light section of this catalogue for more information on this assortment.

LIGHT BARS FROM DAF

- Mounting rail support enables flexibility in lamp configurations
- Wiring pre-installed
- DAF OE solution to ensure a great impression

* Please check if these accessories are in line with local legislation

EUROPEAN SAFETY LEGISLATIONS

At DAF, safety is the most important driver of our business. With the safety solutions from DAF your DAF is always assured of safe traffic participation.

An increasing number of major European cities are introducing legislation aimed at improving road safety. If your DAF is weighing over 12 tonnes it may only operate in the Greater London Area if it is granted a safety permit.

Other regions strongly recommend blind spot displaying systems including display and cameras. The gradual yet mandatory introduction of blind spot detection systems across Europe has begun in October 2020.

VEHICLE SAFETY SYSTEMS FROM DAF

- Full range of cameras and displays available
- Assure safe traffic participation
- Full installation and service at your DAF dealer
- Comply with Local Legislation
- For Authorisation & Payment Control

OMFB HYDRAULICS

OMFB Hydraulics56

OMFB HYDRAULICS

OMFB HYDRAULICS

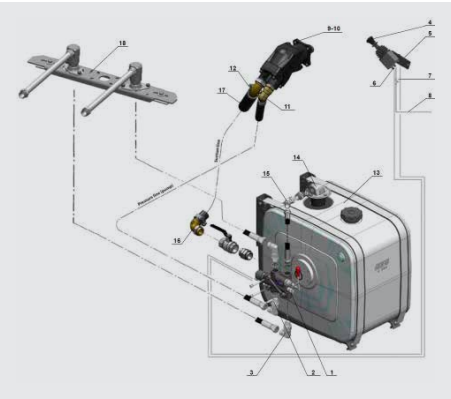

Looking for a suitable hydraulic set operating tipper or walking floor trailers hauled by your New Generation DAF tractor? A system that meets your specific requirements and has been designed for your New Generation DAF? DAF offers a full range of hydraulic parts, manufactured by world's leading professionals OMFB Italy. Besides the single parts DAF offers a full service in compiling the right set for operating either a tipper and/ or walking floor based on your requirements.

All components have been developed to meet or exceed the highest truck industry standards and have been designed according the newest DAF-models to exploit all the new features mounted on your New Generation DAF. An OMFB Hydraulic set without customer compromises for your New Generation DAF.

HYDRAULIC SETS FROM DAF

- Full installation and service at your DAF dealer
- Designed for DAF
- Validated according highest automotive industry standards
- Two year warranty

For a full installation for your truck application please consult your DAF dealer.
